# GLOBAL MASTERCLASS COURSES

The Global Masterclass is designed to elevate students' learning experience by taking education beyond traditional theory and immersing them in real-world, hands-on environments. This advanced level of study focuses on bridging the gap between classroom knowledge and professional industry practice. Through experiential learning, students refine their craft, collaborate in authentic settings, and prepare for the realities of a global creative career.

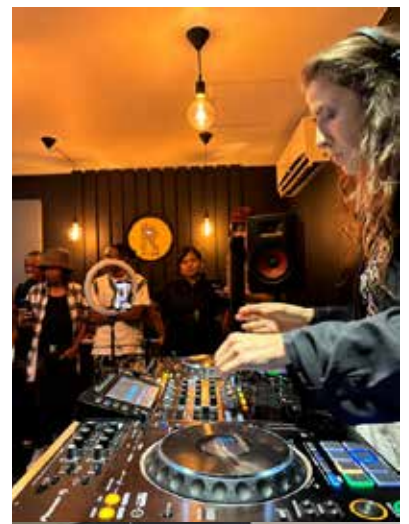

Each discipline within the Global Masterclass - whether DJing, Music Production, or Performance - incorporates intensive workshops and professional studio sessions that simulate real industry experiences. Students engage directly with live artists, instruments, and studio equipment, applying their skills in collaborative and dynamic environments.

Across all disciplines, the Global Masterclass emphasizes:

- **Practical Application:** Turning theoretical lessons into real-world performance and production experiences.
- **Industry Immersion:** Working in professional studio environments with live vocalists, musicians, and performance teams.
- **Collaboration and Innovation:** Encouraging cross-disciplinary projects that blend creativity, technology, and artistry.
- **Professional Readiness:** Preparing students for careers in music, performance, and production through exposure to authentic industry scenarios.

By the end of the Global Masterclass, students emerge with not only enhanced technical ability but also the confidence, creativity, and professionalism needed to thrive in today's competitive entertainment and creative industries.

THE GLOBAL MASTERCLASS LEVEL IS  
AVAILABLE IN **ALL DJ, MUSIC PRODUCTION  
AND PERFORMANCE COURSES.**

# DJ PRODUCTION

The DJ Production Course is a unique blend of two RISE Academy courses: Ultimate DJ and Music Production, combining the essential skills of DJ performance with the creative freedom of music production. There are two levels, Pro and Global Masterclass. The difference between the two levels is that the Global Masterclass covers 22 workshops that are not included in the Pro level.

These workshops expand the course far beyond traditional DJ or production training, immersing students in real-world creative and performance scenarios. Learners explore everything from collaborative sets through Back-to-Back DJing and high-energy DJ Battles, to the artistry of Live Voice Integration, Mashup and Remix creation, and Genre Switching. They develop stage confidence and adaptability through Live Beatmaking, Song Selection, and Performing Live sessions, while mastering advanced techniques for hybrid DJ/Live Performer setups, large-scale festival performances, and integrating visuals and lighting for immersive shows.

On the production side, students engage with cutting-edge topics such as Vocal Recording and Processing, AI-enhanced music creation and live remixing, Soundtrack Composition for Games, and Sound Design for Film through field recording. The workshops also include practical experiences like Live Recording Sessions, Music for Media scoring, Remix Challenges, and Podcast and Post-Production for Film and TV - giving students the versatility to thrive as modern, industry-ready artists who can both create and perform their own music at a professional level.

*Part-time lessons take place on Saturdays. Full-time lessons take place from Tuesday to Friday. The daily schedule depends on which level you chose to do.*

# LIVE SOUND

This course is perfect for anyone passionate about music, sound, and live events! A Sound Engineer needs hands-on experience to stand out in the competitive industry, which is why this course blends practical lessons with real-world event work. Our students gain experience by working on sound setups for major events, including concerts by top artists like Nasty C and Black Coffee. Partnered with The Live Group, known for its 22 years of experience and perfect event safety record, we ensure you get the event experience needed to build an impressive CV and thrive in the live sound industry.
